Please note

This document provides information about the model range line-up and specifications of the (e)Sprinter. It also contains key details about the economy and performance of the variants. Details are correct at time of publication and are subject to revision without notice. Any images used in this document may not reflect UK specification and are for illustrative purposes only. Images may show optional equipment which does not form part of UK standard specification.

30 years of the Mercedes-Benz Sprinter.

RETURN TO START

Thirty years ago, Mercedes-Benz launched a van that was to make history: the Sprinter. As the first Mercedes-Benz van with an iconic name, it revolutionised the light commercial vehicle segment, quickly becoming the namesake for an entire vehicle class. Then as now, it stands for quality and innovation.

1995: The beginning of a new van era.

The Sprinter celebrated its premiere in spring 1995. The Sprinter succeeded the legendary T1/TN and was the first Mercedes-Benz van that had a name instead of number and letter codes. It only took over the basic technical concept from its predecessor, everything else was engineered and designed from scratch. The combination of a self-supporting body and high-traction rear-wheel drive, modern chassis with independent front suspension and powerful engines was unique at that time. What's more, no other van offered more safety features: Already the first Sprinter had disc brakes all round, ABS anti-lock braking system, automatic brake differential, height-adjustable three-point seat belts and seat belt buckles attached to the seat as standard. A driver airbag was also optionally available.

The Mercedes-Benz Sprinter maintained its leadership in Safety with an extensive update in 2000: The driver's airbag became standard, with an optional front passenger airbag on the inside of a passenger double bench seat. Window bags and traction control ASR were also available from mid-2000. With the introduction of the ESP® electronic stability programme, the Sprinter set new standards in active safety from 2002.

2006: Technology and safety upgrade for the second Sprinter generation.

The second generation of the Sprinter was launched with an extended line-up at the beginning of 2006. The line-up now consisted of three wheelbases, four lengths, three roof heights and vehicle weights from 3.0 to 5.0 tonnes. In addition, the Electronic Stability Program ESP® was introduced as standard in panel vans up to 3.5 tonnes gross weight. Two years later, it was standard on all body variants up to 3.5 tonnes gross weight.

Another milestone followed in 2009 with the introduction of BlueEFFICIENCY: The technology with the new six-speed manual gearbox and automatic start-stop system increased dynamics and noticeably reduced fuel consumption.

Then in 2013, Sprinter safety advanced even further with the introduction of Crosswind Assist, a completely new safety system in a van.

2018/2019: Connectivity and variety at the centre of the third Sprinter generation.

The third generation of the Sprinter was launched in 2018. The 2018 Sprinter set new standards, particularly in terms of infotainment and connectivity, thanks to the MBUX (Mercedes-Benz User Experience) multimedia system, which was available for the first time in a commercial vehicle.

Since then, the Sprinter has been obeying spoken commands and the use of central fleet, vehicle, driver, and location-based services were enabled. In terms of safety features, Mercedes-Benz once again raised the vehicle to a new level, for example with DISTRONIC Active Distance Assist.

The next milestone came in 2019: The first production-ready eSprinter panel van was launched, offering the possibility of locally CO₂-emission-free mobility for trade, logistics and business with its battery-electric drive.

2024: More versatile than ever.

The triad of efficiency, range and load volume makes the current Mercedes-Benz eSprinter a versatile all-rounder. The eSprinter has been available in its current form since last year; now in two body styles and lengths as well as two battery sizes with a range of up to 272 miles (438 kilometres) (WLTP)¹. It is based on a new concept consisting of three modules that allow the platform to be easily adapted to further vehicle variants. With a load volume of up to 14 cubic metres and a gross weight of up to 4.25 tonnes, the eSprinter is just as functional as its combustion engine counterpart.

In 2024, the combustion engine and electric Sprinter benefitted from an updated MBUX multimedia system and new Digital Extras. The safety and assistance systems have also been upgraded with additional and, in some cases, new functions that are standard equipment for the most part.

¹ The specified values were determined in accordance with the prescribed WLTP (Worldwide Harmonised Light Vehicles Test Procedure) measurement procedure. The values stated refer to the UK market. The actual range is also dependent on the individual driving style, road and traffic conditions, the outside temperature, use of the air conditioning system/heating and may differ.

30 years of the Mercedes-Benz Sprinter.

RETURN TO START

A special edition to celebrate the 30th Anniversary.

Mercedes-Benz is celebrating the 30th anniversary of its iconic van with the launch of a special edition, available from 26th March.

The special edition is available with a diesel-powered 315 or 317 CDI engine or the fully electric eSprinter. Whichever you chose, the Sprinter 30th Anniversary Special Edition will deliver the performance, reliability, and innovation Mercedes-Benz is known for.

Building on the PRO line, the special edition package further enhances key features of the Sprinter with Satellite Navigation, Parking package with reversing camera and a leather covered, heated steering wheel.

Explore the future of commercial mobility today.

The Mercedes-Benz Sprinter.

RETURN TO START

Designed to deliver seamless performance and efficiency, the Sprinter 315 and 317 CDI provide the power and flexibility needed to tackle demanding workloads. Paired with advanced driver assistance systems and a highly configurable load space, the Sprinter 315 and 317 CDI are built for businesses that demand excellence. The Sprinter is equipped with a 2.0-litre 4-cylinder diesel engine complying to the latest EURO 6e emission standards.

Sprinter 315 CDI: Delivering 150 hp (110 kW) and 340 Nm of torque, the 315 CDI offers a perfect balance of power and fuel economy.

Sprinter 317 CDI: For those requiring extra power, tuned to produce 170 hp (125 kW) and 400 Nm of torque, ensuring effortless hauling and superior performance.

The Special Edition 315 and 317 CDI models come with the latest 9G-TRONIC automatic transmission, in rear-wheel-drive configuration, delivering smooth gear shifts and enhanced driving comfort.

The Mercedes-Benz eSprinter.

RETURN TO START

For businesses ready to take the next step in sustainable transport, the eSprinter offers zero-emission driving without compromise. With a lithium iron phosphate, 400 Volt battery, the eSprinter offers the range needed on a single charge.

The 30th Anniversary Special Edition comes with 81kWh battery, delivering up to 167 miles (WLTP) on a single charge.

Rapid DC charging capability: Charge from 10-80% in approx. 34 minutes with a 115 kW fast charger.

Powerful yet silent: 100 kW (136 hp) or 150 kW (204 hp) electric motor, offering 400 Nm of instant torque and smooth acceleration.

Spacious and practical: The eSprinter retains the Sprinter's renowned load capacity (14m³ on L3 models), ensuring businesses get the space they need with an eco-friendly drive.

The eSprinter includes an Integrated Service Package (ISP).

Integrated Service Package (ISP), helps to form an integral part of our commitment that the eSprinter is not only performing well but is safe to operate at all times.

Our ISP consists of four services: two A (minor) and two B (major) services as standard – and can be transferred to a new owner. All of our electric vehicles also come with out of charge cover and an 8 year/100,000 miles battery capacity warranty as standard. The service interval on the eSprinter is 1 year/24,000 miles.

MBUX the Mercedes-Benz User Experience infotainment system and Navigation.

RETURN TO START

30th Anniversary Special Edition upgrade

MBUX multimedia system.

The Mercedes-Benz state-of-the-art infotainment system now has increased computing power, improved functionality in controlling vehicle functions and better compatibility with mobile devices.

The following features come as standard with the MBUX system:

- 2-way front speaker, 4 x 25 W output, sound settings, separate volume settings for audio and phone
- AM/FM radio with dual tuner
- Bluetooth connectivity with audio streaming
- Center-fill speakers for improved sound quality and voice output
- Digital Instruction Manual
- Extensive personalization options with up to seven profiles²
- High-resolution 10.25-inch touchscreen (1,920 x 720 pixels)
- LINGUATRONIC voice control with optimized, intuitive voice assistant
- Multimedia interface with three backlit 18 W PPS USB-C ports
- Online Music^{1,2}: Tidal, Amazon Music, Spotify
- Over-the-air (OTA) updates²
- Seat-based voice recognition for driver and front passenger³
- Wi-Fi hotspot
- Wireless remote UI connection for Apple CarPlay and Android Auto⁴

1 Service Entertainment Package required
 2 via The Mercedes-Benz App
 3 only together with comfort overhead control panel (LC4)
 4 Apple CarPlay and Android Auto is only available in conjunction with E4S - Smartphone integration package

Navigation.

The navigation system is fully integrated in the operating and display concept of the MBUX multimedia system. This intelligent system guides you to your destination reliably, drawing on both local and up-to-date online information. A high quality 2D or 3D map display recommends the ideal route and lanes.

Standard features

- LINGUATRONIC voice control system with "Hey Mercedes"
- Social Navigation
- Navigation Services: Parking, Weather and Local Search
- Navigation for Trailers and Oversized Vehicles
- Live Traffic Information
- Send2Car via app (unlimited)
- Satellite View

Multifunction steering wheel, leather covered and heated.

RETURN TO START

30th Anniversary Special Edition upgrade

Multifunction steering wheel.

The ergonomically shaped multifunction steering wheel combines operating comfort with attractive design. The touch-control panels in the steering wheel spokes enable comfortable and intuitive operation of various vehicle functions and settings, such as infotainment and navigation. These small touch pads can be operated by finger movement alone meaning hands do not have to be taken off the steering wheel.

In addition, with the appropriate equipment, settings can also be made for the limiter, cruise control and the Active Distance Assist DISTRONIC. It is also possible to answer, end and mute phone calls without being significantly distracted from the traffic.

Leather covered and heated steering wheel.

The standard steering wheel design is finished in nappa leather with silver chrome surround on the steering wheel spokes and gearshift paddles complementing the air vents.

When activated, the steering heating function quickly warms the outer grip surface of the leather multifunction steering wheel to a temperature of approx. 34°C. It can be activated at the touch of a button or by voice control "Hey Mercedes" and switches off again automatically after a certain time.

Direct contact with the steering wheel warms up the hands quickly, which can increase comfort and safety when steering.

Advanced Driver Assistance Systems.

RETURN TO START

30th Anniversary Special Edition upgrade

Over its 30 years, the Mercedes-Benz Sprinter has always prioritised safety and continues to lead in this field. The current diesel and electric Sprinter received further safety and ADAS enhancements in 2024 and holds the EURO NCAP Platinum rating.

In 2024, the multifunction steering wheel with hands-off-detection, the MBUX with 10.25-inch touch screen, the reversing camera, the instrument cluster with colour display, Active Lane Keeping Assist, Blind Spot Assist, the co-driver airbag and tyre pressure monitoring, all became part of the standard equipment on every diesel and electric Sprinter van.

In addition, the current Sprinter is equipped as standard with:

Active Brake Assist with pedestrian and cyclist detection

Attention Assist for drowsiness detection

Intelligent Speed Assistant displays the current speed limit in the driver's direct field of vision

Crosswind Assist detects strong crosswinds and helps the driver remain in lane

Hill-Start Assist makes uphill starts easier by preventing roll back

Sideguard Assist alerts the driver to other road users in the front passenger's blind spot

Headlamp assistant automatically switches low beam on or off to optimise vehicle visibility

Parking package with reversing camera.

The reversing camera increases visibility of the area directly behind the Sprinter. In addition, Parking Assist provides a visual and acoustic warning if sensors detect obstacles to the front or rear of the Sprinter up to a speed of 10 km/h.

There are twelve ultrasonic sensors in total, six in the front and six in the rear bumper.

For added collision prevention, Drive Away Assist will automatically reduce speed to 2km/h when moving off, if objects are detected in the direction of travel.

The Sprinter van.

317 Sprinter Van L3 H2 30SE	9.6/ 29.4	10.1/ 27.9	8.7/ 32.4	8.4/ 33.6	11.0/ 25.6

CO₂ emissions (g/km)

Model	Combined	Low (Extra Urban)	Medium (Urban)	High (Rural)	Extra High (Motorway)
315 Sprinter Van L2 H2 30SE	249	256	224	216	289
315 Sprinter Van L3 H2 30SE	255	265	231	222	294
317 Sprinter Van L2 H2 30SE	245	255	222	214	282
317 Sprinter Van L3 H2 30SE	251	264	229	220	288

All figures are based on a standard specification. The choice of additional factory options may affect CO₂ emissions and corresponding Road Fund Licence. The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. Figures shown are for comparability purposes; only compare with other vans tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load.

Further information about the test used to establish fuel consumption and CO₂ figures can be found at <https://www.mercedes-benz.co.uk/vans/en/WLTP>

Electrical consumption and range performance.

Electric Range, WLTP (miles)

Model	Combined	Low (Extra Urban)	Medium (Urban)	High (Rural)	Extra High (Motorway)
81kWh eSprinter 314 Van L2 30SE	165	-	-	-	-
81kWh eSprinter 314 Van L3 30SE	160	-	-	-	-
81kWh eSprinter 320 Van L2 30SE	167	-	-	-	-
81kWh eSprinter 320 Van L3 30SE	162	-	-	-	-

Energy Consumption (kW/100km)

Model	Combined	Low (Extra Urban)	Medium (Urban)	High (Rural)	Extra High (Motorway)
81kWh eSprinter 314 Van L2 30SE	33.6	21.0	24.1	29.8	49.1
81kWh eSprinter 314 Van L3 30SE	34.6	22.1	25.3	30.7	49.6
81kWh eSprinter 320 Van L2 30SE	33.2	20.6	23.6	30.0	45.9
81kWh eSprinter 320 Van L3 30SE	34.3	21.7	24.8	31.0	46.8

The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Battery Electric Vehicles (BEV) require mains electricity for charging, range figures determined with the battery fully charged. Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedure (WLTP). Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP>. Mercedes-Benz Finance Options.

Choose an agreement that suits you with Mercedes-Benz Finance.

At Mercedes-Benz Finance we understand what it takes to run a modern-day business. Because of this, we have a number of finance options ready to suit your business needs.

Agility (Personal Contract Plan)

Agility (Personal Contract Plan) is our most flexible method of financing. You drive the vehicle over a fixed term, with fixed monthly payments. And at the end of the agreement, you decide whether you want to:

- Buy another Mercedes-Benz.
- Purchase your van by paying the Optional Purchase payment (balloon) and Option to Purchase Fee.
- Return it to us.

As a business customer, your vehicle can also appear as an asset on your balance sheet.

[For more information about Agility.](#)

Hire Purchase

A straightforward route to ownership. This product allows you to spread the overall cost of your Mercedes-Benz over a fixed term.

As a business customer, your vehicle can also appear as an asset on your balance sheet.

[For more information on Hire Purchase.](#)

Operating Lease

A solution for those who want to drive one of our vehicles over a specific term, with fixed monthly rentals and without the commitment of ownership of the vehicle.

As a business customer, your vehicle can also appear as an asset on your balance sheet.

[For more information on Operating Lease.](#)

Contract Hire

A solution for those who want to drive one of our vans over a specific term, with fixed monthly rentals and without the need to commit to ownership of the vehicle. This includes the cost of your Vehicle Excise Duty (also known as Road Fund Licence) for the duration of your agreement.

As a business customer, your vehicle can also appear as an asset on your balance sheet.

[For more information on Contract Hire.](#)

Finance Lease

Finance Lease gives you the ability to enjoy driving a Mercedes-Benz Van for a fixed time without the option of ownership. With this option you lease your vehicle for a fixed period and for fixed monthly rentals.

As a limited company or PLC customer, your vehicle can also appear as an asset on your balance sheet.

The Mercedes-Benz App.

RETURN TO START

Monitor your van's status, location and security via your smartphone.

ASSISTANCE & AFTERCARE		FREE
Telediagnosics & Maintenance Management	Receive a notification when wear is detected on diagnostic-capable parts such as brake pads and get advance notice of when a service is due allowing you to plan your workshop visit well in advance to minimise any impact on your business.	
Remote Vehicle Diagnostics	Your Dealer can assess your van's condition remotely allowing them to check if any other repairs are required ahead of a service.	
Accident Recovery & Breakdown Management	Once an emergency call has been resolved or if you request breakdown assistance, further support is offered to help recover your van or to tow it to a Mercedes-Benz Service outlet.	
Software updates	Over-the-air software updates are sent directly to your van's head unit. This means you'll always know your software is up to date and you'll save time by avoiding additional workshop visits.	
VEHICLE SUPERVISION		FREE FOR 3 YEARS
Vehicle Tracker	See your van's location on the map in your app, making it easy to call or message your driver and re-route them to fit in another delivery or pick-up if a quicker route is available. The tracker is factory fitted equipment so it can't be easily removed if stolen.	
Parked Vehicle Locator	If you're within 1 mile of your van's parked location, the app can generate the most convenient walking route - very handy if you're in unfamiliar surroundings and on a busy schedule.	
REMOTE ACCESS		FREE FOR 3 YEARS
Remote Retrieval of Vehicle Status	Use your app to check on charge level (or fuel), tyre pressure, mileage and trip information. Not only does this help you plan your day's journeys, it can save you admin time on tasks such as logging your mileage for expenses.	
Remote Door Locking & Unlocking	The app allows you to check if your van is locked. If you lock your keys in the van or need to give another driver access, you can do it via the app, from any distance away. For added peace of mind, you'll receive an email notification when your vehicle is unlocked.	
EV SERVICES (eSprinter ONLY)		FREE
Pre-Entry Climate Control	Climate control can be started remotely when your van is charging so energy used for heating will draw on the mains power to avoid depleting your battery. This means you'll have maximum comfort and battery range.	
Display of Charging Stations & Range on map	The Mercedes-Benz App shows you charging stations in the surrounding area and enables you to set the preferred one as your destination. The range display in your app helps you plan a journey with confidence as it shows if you can reach your destination using your existing battery range.	

Service24: Demand more.

The most comprehensive Aftercare package – for businesses that demand more.

Our 120-strong Dealer network works around the clock to service and maintain your vans and keep your business moving. It all adds up to more value, more flexibility and more confidence that you'll only find at an authorised Mercedes-Benz Dealer.

› Flexible servicing and maintenance

Book your service online or by telephone, and as well as a standard 'drop and go' service with a courtesy van, you'll also get:

- Early bird, late night and weekend slots
- Mobile service
- Overnight service
- Collect & deliver service
- Express 1hr service
- Electric van service.
